

The City of San Diego's Municipal Government Fellowship Program

Request for Fellowship Services

The Fellowship program provides graduate students an opportunity to gain professional experience in a municipal government work setting, while pursuing their academia curriculum. The Fellow is either a Master's or a Ph.D. candidate who has an interest in public administration/municipal government as a career. The Fellow's position is categorized as an Unclassified Program Coordinator and is assigned to a mid-to-top level Manager. Assignments and projects for the Fellow should reflect the level of complexity that such a position in the City would typically be given. Fellows rotate to different City departments, for approximately 1-6 months per rotation, in an effort to expose the Fellow to a range of municipal government experiences. *In general fund departments, payment for the Fellow's salary and benefits are made by the Career Development Program (out of the Fellowship budget); however, enterprise departments pay for the Fellow's salary and benefits.
